WORK EXPERIENCE

[01/08/2022 – Current]

Senior Frontend Engineer (remote)

Conductive.ai

Some of the responsibilities/tasks:

- Document ways of working, coding standards and enforce them through linting and code reviews.
- Setting unit tests, end to end tests, sentry, foundations for the design system and storybook
- Creating a design system with tailwindcss + radix.ui
- Have frontend's syncs with designer(s), product manager and frontend developers.
- Having pair sessions with engineers to help solving blockers/learning purposes.
- We work closely with designers, backend team, product managers and devOps.
